A fat man has an advantage over some of us lean fellows. He knows exactly where his siglas are going to land.

THE ALBERTA COURTS CONSTITUTED

The following Alberta Court appointments have been officially announced—

T. M. Tweedie, M.P. for Calgary West, appointed judge of the Supreme Court of Alberta, a member of the trial division of that Court and ex-officio judge of the appellate division.

Alfred H. Clarke, K.C., Calgary, appointed judge of the Supreme Court of Alberta, a member of the appellate division of that Court and ex-officio judge of the trial division.

Hon. H. Harvey, appointed chief justice of the trial division of the Supreme Court of Alberta and ex-officio judge of the appellate division.

Hon. David Lynch Scott, heretofore justice of Supreme Court of Alberta, to be chief justice of the Supreme Court and member of the appellate division and ex-officio judge of the trial division.

Hon. William L. Walsh, Hon. Maitland S. McCarthy, Hon. William C. Simmons, and Hon. Carlos Ives, now Judges of the Supreme Court of Alberta, to be judges of the trial division of this Court, and ex-officio judges of the appellate division.

Hon. Charles A. Stuart, Hon. Nicholas D. Beck, Hon. James D. Hyndman to be members of the appellate division, Supreme Court of Alberta, and ex-officio judges of the trial division.

COLEMAN PUPILS REWARDED

At a public meeting held at Coleman on Friday, the 16th inst., prizes were presented to successful school pupils. The prizes were the gift of Mrs. Oumette, who at the beginning of last term put a substantial cheque in the hands of Principal Powell and asked him to do as he deemed best. It was decided to divide up the money and offer prizes in Grades 8, 7, 6, and 5 for proficiency during the term and also in the final examinations. Prizes were awarded as follows:

Grade 8—Norah Derbyshire, and Agnes Kilgannon.
Grade 7—Blythe Davidson.
Grade 6—Aurelia Salubro.
Grade 5—Fraser McLeod.

Short addresses were given by Rev. D. K. Allan, Rev. Father McCormick, Mr. Hayson and Mrs. McLeod. Mr. Oumette, senior, gave a splendid address on the value of education and hoped that this event would be a precedent to be followed next year.

T. ELMORE LUCEY COMING

A treat is in store in the way of Lyceum entertainment, to be held in the Workers' hall, at Bellevue on the night of Wednesday, October the 12th, at 8 p. m.

The entertainer on this occasion will be T. Elmore Lucey, printer, poet-journalist, actor, composer-singer, chalk-talker, impersonator and editor, who is winning renown as the greatest versatile entertainer of the day. Mr. Lucey is an outstanding character. His monologues and interpretations are powerful. His Poe, Riley, and his provincial characters are masterly. He is above the stage. Thousands of people have thronged to see and hear him during his Chautauque tours of the past two years, and a crowded house will greet him at Bellevue on this occasion.

The Senior Mission Band meet every Monday evening at 7.30 p.m. All teen age girls are welcome. Louise Knappman, president.

The J.O.C. Mission Band meet every Friday, from 7 to 8 p.m. All girls from 12 to 14 welcome. Violet Sinclair, president. Margaret Baird, secretary. Rena Dawson, treasurer.

The Junior Mission Band meet every Saturday, at 3 p.m. For children under 12 years. Saturday, October 1st, "Rally Day."

MEMORIAL SERVICE

The public are reminded of the united memorial service to be held at a point between the two Blairmore cemeteries on Sunday afternoon at 3 o'clock, where special tributes will be offered for those who lost their lives as a result of the great war.

All denominations are required to take part in this service, which will be conducted by the Revs. Father Murphy, of St. Anne's Catholic church, Major Walker, of the Anglican church, and W. T. Young, of the Union church.

HOVANETS-SILECH

A pretty wedding was solemnized at St. Anne's Catholic church on Monday morning, when Miss Katherine Hovanets became the bride of Tony Silch. Rev. Father Murphy performed the ceremony. The bride was prettily attired and was attended by Misses Annie Dboy and Carrie Admick.

Following the ceremony the bridal party repaired to the residence of the groom on Sixth Avenue where a dainty repast was partaken of, about one hundred guests being present. Mrs. Silch was formerly school teacher in the heart of Russia and came to Canada about six months ago.

A Portland woman writes that the only change she has noticed in her husband since prohibition came in is that he now tells his troubles to her instead of the bartender.

(Adv.)

We notice that a meeting has been called for organization purposes of all supporters of the Meighen government, to be held in Blairmore on Friday evening the 30th inst. No doubt this meeting will be largely attended, as representatives are expected, as far east as Macleod.

From the gossip off the street, we hear the name of our old friend John Herron from Pincher Creek mentioned as a Government candidate for the next election. Mr. Herron was, previous to 1911, our representative for two consecutive terms, and he doubt he will make a very strong running for the nomination, and if nominated at the convention will receive the hearty support of his numerous admirers throughout the constituency, especially the Crows Nest district.

Mr. Herron's outstanding fault as a politician was his trying to please all parties, whether his supporters or not.

We also hear that our present member Mr. Hugh M. Shaw of Nanton, is willing to accept the nomination as a Government candidate. He is not as well known in the Crow district as Mr. Herron but we understand that the government supporters in the northern part of the district are practically unanimous as to Mr. Shaw receiving the nomination, while the southern part of the district are practically unanimous as to a south man whether it will be Mr. Herron or somebody else.

No doubt the coming election will be strenuously fought by all parties. It appears from the present outlook that we will have a choice of four candidates,—the Government supporter and three opposition candidates, Labor, Liberal and U. F. A. We do not say Farmer, as we understand that a great many farmers are opposed to calling the U. F. A. candidate a representative of the farmer, but merely a representative of the group farmer system, known as the U. F. A.

No doubt the outcome will be hard to figure—Labor being so strong in this district. It would appear that they would have as good a chance of winning as anybody. The Farmer being so strong

GREEN'S GARAGE

BELLEVUE ALBERTA

on the prairie, it would look as they might have as good a chance as the Liberals or Government. Some people say that neither the Liberal or the Government candidate has any chance of success, but that the fight will be between Labour and the U. F. A. candidate. The result remains to be seen. Anyway, let every voter declare their respective position and get out voting for their man. Remember the women as well as the men have a vote this time and are eligible as delegates to meetings and all conventions.

World Happenings Briefly Told

Canton has 60 without its morning, noon and evening teas. The tea-house waiters are on strike.

The Lord Provost of Glasgow has reopened the fund for the purpose of paying rates of the deserving unemployed.

The Shanghai Day and Night Bank has been organized on the plan of remaining open for business until midnight.

An Avro airplane in good condition was sold in Utrenburg, S.A., on a court order, for \$145, the highest bid offered by a Port Elizabeth firm.

America has been special "chapter railway coaches," which provide a home for the minister and his family, and has seating accommodations for 90 persons.

A large twin, night airplane shod, which is said to have cost more than \$150,000, has been sold at auction in London for \$525.

Rumors that King Christian of Denmark is shortly to pay an official visit to the United States are unfounded.

Teaching in England and Wales has become more popular since the end of the war. The Board of Education reports 600 more teachers enrolled this year than last.

Thomas Sullivan, arrested for breaking into the store of the British and Foreign Bible Society, Cape Town, and stealing a Bible, was sentenced to three months imprisonment.

Lady Patricia Ramsay, formerly Princess Patricia, has just returned through Col. Hamilton Gault, a brown statuette representing a man of Princess Patricia's Light Infantry in full fighting kit.

The staff committee of the League of Nations has adopted the proposal of Sir George Perley that the staff should be recruited, with fair proportion, from all the countries that are members of the league.

The Workers Dreadnought, Sylvia Pankhurst's paper, is not going to stop publication, as previously announced. Miss Pankhurst has stated that she will continue the paper as she has been successful in raising the £500 necessary to carry on with.

Reuter's correspondent in Bombay says that the news of the arrest of prominent agitators in Bombay and Simla was received quietly throughout India. There were a few slight disturbances in Bombay, but these were confined to the smashing of tram windows.

The Man Who Said: "The proof of the pudding is in the eating"— was only half through

He started a good pudding, proof, but he didn't finish it.

There's a lot of trouble in the world from puddings that taste good but don't do good.

They "eat" well, but that ends the recommendation.

Sanitariums are full of puddings that stoppeth the taste and forget to inquire whether their food gave the body what it needed—until the body rebelled.

Grape-Nuts is a food that tastes good and does good. The proof of Grape-Nuts begins in the eating and goes on through the splendid service which Grape-Nuts renders as a real food. Grape-Nuts is the perfected goodness of wheat and malted barley—delicious to taste, easy to digest, and exceptionally rich in nourishment for body and brain.

"There's a Reason" for Grape-Nuts

World's Finest Diamond

Was Given to King Edward by Transvaal Government.

The largest diamond in the world is the Cullinan diamond, given to King Edward by the Transvaal Government in 1907. The stone was presented to King Edward in token of the loyalty and appreciation of the people of the Transvaal for the bestowal of the constitution on the colony. It was unearthed at the Jaagersfontein mine, Orange River Colony, South Africa, in 1905. In its rough state it weighed 3,025 carats, or 1 1/3 pounds. Amsterdam diamond cutters made nine large stones and several smaller ones from it. The largest still weighs 516 1/2 carats and is said to be the most valuable and brilliant diamond in human possession today.

RHEUMATISM! Is Yours Acute or Chronic?

In either case you'll get such results from good old "Nerviline" which has five times the pain destroying power of ordinary remedies. Nerviline gives results because it penetrates to the source of the pain, because it contains ingredients that destroy rheumatic poisons. It is the unusually bad case that proves the power of Nerviline. Suffered for young and old; used internally and externally for many purposes, 25c at all dealers.

Choosing Future Queen

Prince of Wales Will Not Be Forced Into Matrimony.

The public never tires of providing the Prince of Wales with wives; it is a favorite amusement not only with women but with men. I was told in confidence who the embryo Princess really is the other day. I shall not betray the confidence, but may say it is a girl whose engagement to quite another young man will soon be announced. Yet I was assured the information came from a member of His Royal Highness's household direct to my informant. So much for social tips, which are about as reliable as racing tips. The Prince is not going to be either hurried or coerced into matrimony. When the announcement of his engagement is made it will be sudden and surprising—we may be sure of that—and it will not please everybody.—Belfast Weekly News.

One of the best known guides in Nova Scotia gives this testimonial of MINARD'S LINIMENT:

"I have used Minard's Liniment in my home, hunting and lumber camps for years, and consider it the best white liniment on the market. I find that it gives quick relief to minor ailments, such as sprains, bruises and all kinds of rheumatism. Also it is a great remedy for coughs, colds, etc., which one is liable to catch when log driving and tramping during the winter and spring months. I would not be without MINARD'S LINIMENT and cannot recommend it too highly."
(Signed) Ellison Gray.

A Chicago woman destroyed her husband's clothes in a fit of passion. He complained of her; she was arrested and fined, and he had to pay the fine.

The half-moon fish, which is found in the upper waters of the Amazon, casts a phosphorescent glow resembling moonlight.

New "Court of Miracles"

House Described by Victor Hugo Discovered in Paris.

A new "Court of Miracles," so vividly described by Victor Hugo in "Notre Dame," has been discovered in Paris. Every night scores of beggars—blind men, lame men, deaf men, dumb men, paralyzed men—came to the house of the "King of Egypt," himself a "blind man" by profession, behind the town hall and in true beggars' style spent their "earnings" in revelry all night long.

Neighbors complained, and one night recently the police descended on the "Court of Miracles" with an edictment order, but the beggars set up house again in the open air on a piece of waste ground and the revelry began afresh.

The joyous spectacle increased in intensity. The blind saw and the deaf heard, armless men took out musical instruments and played, while crippled, palsied people merrily frolicked in the ruddy glare of the camp fire.

The police interrupted the fête, but just as in the days of yore they were met by a stubborn resistance and attacked with crutches and imitation legs and arms. They were routed. Next morning they returned to the charge, but all the beggars had returned to their "employments" except the "king and queen of Egypt."

A MOTHER'S ADVICE

Once a mother has used Baby's Own Tablets for her little ones she is always happy to recommend them to others. Her advice, given after a careful trial, can be readily followed with assured good results. The Tablets are a mild but thorough laxative which never fail to regulate the bowels and sweeten the stomach. They also do good—they cannot possibly do harm even to the youngest babe. Concerning them Mrs. P. Laforest, St. Nazaire, Que., writes:—"For three months my baby was constipated and cried continually. On the advice of a friend I gave him Baby's Own Tablets and now at the age of five months he is perfectly well and weighs twenty pounds. I am delighted to be able to advise other mothers to use them. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont."

First Baby Travels to Paris

Among the passengers on the Greyhound Paris aeroplane was a baby just 5-13 months old, who was going to France with her parents. This is the first baby in arms to travel by the Continental airway. Frieda Inglin, as she is called, lay quite contentedly in her mother's arms, and did not appear to be in the least frightened by the roar of the jet engines.

Isn't She Mean?
She (during the quarrel).—You never deserved a wife like me!
He.—And I never deserved the rheumatism, but I got it just the same.

Complete in itself, Mother Graves' Worm Extremist does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

A Growing Union

Movement in Progress to Extend Union of South Africa.

The Union of South Africa, over which General Smuts presides, contains four provinces, but is only a third larger than British Columbia, or two-thirds the area of Quebec. The movement now in progress for the annexation of the colony of Rhodesia, at present administered by the British South Africa Company, would nearly double the area of the Union by adding 450,000 square miles to the 475,000 now administered by the Union Government. It would add 1,500,000 to the native population, with some 40,000 Europeans.

The Government of Mr. Smuts is also administering the former German protectorate of West Africa, an estate of 320,000 square miles, with a small European population and several hundred thousand natives. The number of the natives was greatly reduced, and some races nearly exterminated during the German occupation. General Smuts is thus likely to have under his jurisdiction 1,200,000 square miles of territory, with a total population not much less than that of Canada.—The Daily Province.

Outlashed
Mother.—These little playmates of yours look rather common, Bobbie. I hope none of them swear.

Bobbie.—Oh, some of 'em try to, mother, but they ain't much good at it.—Life.

Glitzed, a merchant of Klatcha, has the reputation of being the greatest bear hunter in Siberia. He is 65 years old and recently killed his seventy-seventh bear.

For Hair And Skin Health Cuticura Is Supreme

The majority of skin and hair troubles might be prevented by using Cuticura Soap exclusively for all purposes. It is the slightest sign of freckles, roughness, pimples or dandruff, apply a little Cuticura Ointment. Cuticura's salicylic soaps and cool the skin and promotes healthy perspiration. Delicate, delightful, distinguishes itself by its purity and economy. Sold throughout the Dominion, Canadian Agents: The Cuticura Soap Co., Ltd., 100, St. James St., Montreal. Cuticura Soap shaves without soap.

German Merchant Sold Poisoned Hat

Leather Band Contained Quantity of Sulphuric Acid.

"The last form of German 'frightfulness' is in the form of a poisoned hat, which produces severe pains in the head. It must be removed, however, in fairness to Fritz, that the inconvenience suffered by the wearers of such headgear is the result of chemical action, and forms no part of a deliberate scheme to inflict torture on the public."

A hatter at Bonn has just been and for selling a customer a poisoned hat. After wearing the hat a short time the man felt his forehead throbbing and shooting pains in the head. Not being accustomed to such maladies, he had his hat examined and found that the band was made of artificial leather, which contained a sufficient quantity of sulphuric acid to account for his pain.

The Court awarded the buyer damages and told the hatter that it was his business to discover whether his goods were injurious to customers before selling them.

Attacked by Asthma.—The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case, the relief afforded by Dr. J. D. Hughes' Asthma Remedy is very grateful. The attack is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Error in Report

A discrepancy of 100,000,000 bushels in the crop yield estimate of the Dominion Bureau of Statistics is revealed by officials of the Saskatchewan Co-operative Elevator Company. Quoting the estimated wheat yield for the Dominion this year as 234,000,000 bushels, the Dominion Bureau's report says that the total wheat crop of the aggregate of 1915, which by the Bureau's own figures was 392,000,000 bushels.

Catarrh

Catarrh is a local disease greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a tonic, taken internally, and acts through the blood upon the mucous surfaces of the body. HALL'S CATARRH MEDICINE assists Nature in restoring normal conditions. All Druggists. Circular free. J. J. Cathey & Co., Toledo, Ohio.

Canadian Wool Has Good Reputation

High Quality Appreciated by States and Overseas Markets.

A virtual revolution has been wrought in the wool industry of Canada in the past few years. Whereas but a short while ago the wool produced in Canada was offered for sale in such an unsatisfactory state that the Canadian manufacturer looked with indifference upon the home-grown product, today he realizes that Canadian wool compares favorably with that of any other country and more than half of the domestic production finds its way to Canadian mills. Not only is the high quality of the Canadian product appreciated locally now but in the United States and the overseas markets it is now generally recognized that Canadian wool is producing wool of the equal of similar classes and grades grown elsewhere in the world. Gradually but surely a reputation has been built up for Canadian fleece wools on the domestic and foreign markets.

The patriot's man is loyal to his country and to the community in which he lives. If he is consistent he will give first preference to Canadian made goods when making purchases. He will also stand loyally by his local dealer.

Minard's Liniment used by Physicians

W. N. U. 1287

Gingham and Cretonne United

By Marie Belmont.

This youthful frock shows the effective use of cretonne as a trimming. It is fashioned on very simple lines that affect the much-liked chemise dress. The frock is made of orchid-colored gingham, although should you wish you might copy it in any other color that may be more becoming to yourself. It is fastened down the back with self-covered buttons. The deep border and flat collar are cut from cretonne which has a lavender and green grape design. The three-quarter sleeve is finished with a flaring cuff of the cretonne. A girlish of bright green ribbon encircles the waistline.

Made Long Journey Without Food

Penguins Are Able to Fast For Many Weeks.

Fourteen blackfooted penguins have just come 6,000 miles to the London Zoological Gardens—without a bite to eat. Even now they are not in a hurry to restart the meal habit, says the Daily Mail.

There is an extraordinary variation between the fasting capacity of birds. Some starve if they have to go through an 18 hours night, while the penguin's lift has not been ascertained, though they go for many weeks without signs of distress beyond a certain amount. Seals also share his power of going without food. A few weeks between meals does not seem to worry them, though they make perfect pigs of themselves when they like.

Remember Augustus, the sealion, who got at the Zoo main supply of fish and devoured the whole consignment. Then, four hours later, when the authorities had scraped together a few hundredweight for the remainder of the fish-eaters, Augustus took his place in the "bread-line" without a blush.

He'd Die First.

Mr. Giggan.—Poor Bill was sentenced for life.

Mrs. Giggan.—Sentenced for life? A delicate fellow like him? Well, that's a joke on the judge, 'cause he's too sick to ever serve a life sentence.

Wretchedness OF Constipation Can Be Quickly Overcome by

CARTER'S LITTLE LIVER PILLS
LIVER PILLS
Purely vegetable—act sure and gently on the liver. Relieve biliousness, headache, dizziness and indigestion. They do their duty.
Small Pill—Small Dose—Small Price

Italian Trade Suffers

The balance of trade is still running against Italy. In the five months of 1921, the imports were approximately \$217,000,000, while the exports amounted to but \$134,000,000. This leaves an adverse trade balance of \$183,000,000. In the corresponding period last year the adverse balance was \$160,000,000.

The nests of South American hornets are used by the natives as baskets, being light, strong and so closely made as to be waterproof.

You can't expect the dove to settle down while the riveters keep up such a din on new battleships.

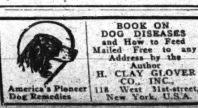

MONEY ORDERS

A Dominion Express Money Order for five dollars costs three cents.

ADIES wanted to do plain and light sewing at home; whole or spare time; good pay, work sent very distant, charges paid. Send stamp for particulars. National Manufacturing Co., Montreal.

NURSES

EXPERIMENTAL FORESTS IN CANADA

Everybody realizes the great bene-
fit which the Dominion Experi-
mental Forests have proved to be of value in
Canada. In the same way it is be-
lieved the Dominion Experimental For-
ests will prove equally beneficial to
forestry. The Forestry Branch of
the Department of Interior is carry-
ing on the work in these experi-
mental forests, the principal station at
present being at Petawawa, Ontario.

Here are found cut-over lands similar
to thousands of acres in Ontario,
Quebec and other forest provinces,
and the work going on is to deter-
mine how most expeditiously to get
these lands back under a forest cover
that will produce good timber and
pulpwood. This is the fourth season
since the work was established and
already the knowledge of how rapidly
Canadian trees grow under differ-
ent conditions of thinning, light
drainage, etc., has been greatly in-
creased. Similar information has
been collected in Europe for about
a hundred years, but European fig-
ures will not do for Canada. It is
too early yet to state results definit-
ely, but, generally speaking, what has
been found has led to the be-
lief that tree growth is just as rapid
in the parts of Canada once clear-
ed as in the timber growing re-
gions of Europe.

THE HORRORS OF WAR

Two soldiers went into a restaurant
in the eastern front, and said to the
waiter: "We want Turkey and
Greece."

The waiter replied: "Sorry, we
can't serve."

"Well then, get the Bosphorus."

The boss came in and heard the
order and then said: "I don't want
to Russia, but you can't Rumania."

They were not a Paraguy Tom-
mies, as they went away Hungary
saying, they never saw a place,
and wishing they were at Frankfurt
or Bologna where they could have
a decent meal. But they longed
most to get back to "Old Blighty" to
Sandwich, as they were lured an-
nounced there.—Contributed.

BE CAREFUL WHAT YOU SAY

(By Joseph Krombach)

In speaking of a person's faults,
Pray don't forget your own.

Remember those with homes of glass.
Single seldom throw a stone.

If we have nothing else to say,
Let's talk of those who sin.

Let's talk of those who sin,
To better we compare in hours.

And from that point begin,
We have no right to judge a man.

Let's talk fairly hard;
Should we not like his company.

We know the world is wide,
Some may have faults—and who has not?

The old as well as young;
Perhaps we may, for aught we know,
They bring to their one.

I'll tell you of a better plan,
'And find it works full well;
To try my own defects to cure.

Be nice of others' faults;
And though I sometimes hope it is
No worse than some I know.

My own shortcomings led me let
The faults of others go.

Then let us all, when we converse
To slender friend or foe,
Think of the harm one word may do.

To those we little know.
Remember curses sometimes like
Our children "rock-a-bone";
Don't speak of others' faults until
We have none of our own.

We asked a man the other day
why he took the local paper. He
gave a most intelligent reply,
stating that he took it first for the
purpose of seeing what the stores
had to offer, to see what the neigh-
bors had to sell or wanted, and to
learn what was going on in the
district, and lastly to help the
printer. You notice what the ad-
vertiser thinks the main thing in a
newspaper, for in them from time
to time you see what the merchants
have to offer, and if you study them
carefully you will find that in the
long run you are going to save
money. Get the habit of reading
carefully every advertisement
week by week and you will re-
ceive the benefit that other people
receive by so doing.

A bald headed man likes to tell
of the hair-breadth escapes he has
had.

It's the little things that worry
us. We can dodge an elephant,
but not a flea.

We are beginning now to figure
"What is home without a cellar?"

COLEMAN HAPPENINGS

A number from here attended the
dance in Blairmore last Friday night.

Mr. S. Carson, formerly of the
bank staff, is renewing old acquaint-
ances in town.

Miss Verna McDonald entertained
a number of her high school friends
at her cosy home last Thursday eve-
ning.

The roof is on the new opera house
now, and we are looking forward to
its opening around the first of Novem-
ber.

Archibald Graham, of Nelson, ad-
dressed a large and appreciative au-
dience in St. Alban's church here last
evening.

Mr. H. McBurney has been suffer-
ing for the past week with an attack
of cold and la grippe, but we are
pleased to see him down at business
once more.

Mrs. Houghton and Mrs. Haines,
who have been spending a delightful
holiday in England and Wales, re-
turned to Coleman last Wednesday
morning, having made the trip in
twelve days.

In spite of the bad weather, a large
number attended the whist drive at
the Catholic school last Thursday
night.—The ladies' prize was won
by Miss McEachern, of the public school
staff, and the gentlemen's prize by
Mr. Alex. McKinnon.

We are sorry to report that Mr. T.
B. Smith, station agent here, is suf-
fering from ill health at present. The
doctor has advised a complete rest
for Mr. Smith, and during his ab-
sence his position is being filled by
Mr. Joe Hovan, while Mr. LaFrance
has taken Mr. Hovan's place as op-
erator.

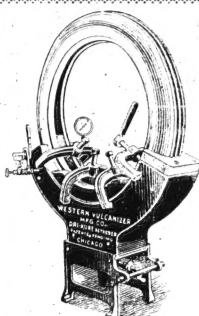

A mass meeting was held in the
council chambers on Friday night for
the purpose of considering the ad-
visability of building a covered rink
in Coleman. It was decided that a
covered rink would be a great benefit
to the town and that there should
be held in order to raise money
for the building.

Last Tuesday evening a whist,
drive and dance was given in the
Anglican church. It was well at-
tended, and enjoyed by all. The prizes
were awarded as follows: Miss Jer-
rold, of the public school staff won
the ladies' first prize. Miss E. Had-
field won the ladies' consolation prize.
Mr. Kirk won the gentlemen's first
prize and Mr. Jas. Evans won the
gentlemen's consolation prize. After
whist, Mr. Sweetlove and Mrs. G. R.
Powell provided music for the dancing.

A meeting of men was held in the
Institutional church Sunday after-
noon for the purpose of discussing
the organization of a Men's Christian
Brotherhood. The meeting was not
largely attended, but everyone was
very enthusiastic and it was decided
that Mr. McDonald should be asked
to come from Calgary to speak to the
men here and give them more know-
ledge of the International Brother-
hood of Men, and also to organize a
Brotherhood here. The date of Mr.
McDonald's coming will be announced
later.

The islands of Hawaii will ship
about 141,000,000 cans of pine-
apple this year. Nineteen years
ago the output was 48,000 cans.
At that time there was only one
cannery, now there are thirteen,
equipped with modern machinery
and with a capacity running up to
500,000 cans a day from one
establishment alone.

Several successful raids were
made by Sgt. Nicholson and his
staff last week and a number of
parties were extended invitations
to appear before Magistrate Gresham
for breaches of the Alberta
Liquor Act. One place raided on
Sunday morning at an early hour
contained some forty men, all of
whom were accorded invitations
and will appear before the court
on Saturday.

Tax Recovery Act

Take notice that certain lands
have been sold by the Town of
Blairmore, under the Tax Re-
covery Act, for non-payment of
taxes and the time at which the
period of redemption provided by
law will expire, is the 30th day of
December, 1921, and the list of such
lands can be seen in the Alberta
Gazette of September, 30th, 1921.

Dated at Blairmore this 18th
day of September, 1921.

J. WRIGHT,
Secretary-Treasurer

It is significant that the first Dodge
car ever built was made up exactly
as a car is made in the regular line
of production. Ordinarily the "ex-
perimental job," as the first car is
known, is built of castings because of
great time and expense involved in
preparing dies for forgings. They
decided, however, that their experi-

ment should be like the car they
expected to build, in every de-
tail, so that neither they nor the pub-
lic might be fooled. So they spent
almost a year in making these dies
and preparing otherwise for a com-
pletely manufactured car. As a re-
sult, when the car was built they
knew what they had and what they
and the public might expect of their
products. As a further result, this
first car is still in daily service on
the hard-iron run—experimenting—
under all sorts of road conditions—and
with a record of more than 150,000
miles behind it.

Public approval of their principle
of thoroughness is seen in the rapid
expansion of Dodge Bros.' works. In
December, 1914, it was a plant of
less than 20 acres. Today the works
cover a floor-space of 100 acres.—Ad.

Everybody realizes the great bene-
fit which the Dominion Experi-
mental Forests have proved to be of value in
Canada. In the same way it is be-
lieved the Dominion Experimental For-
ests will prove equally beneficial to
forestry. The Forestry Branch of
the Department of Interior is carry-
ing on the work in these experi-
mental forests, the principal station at
present being at Petawawa, Ontario.

Here are found cut-over lands similar
to thousands of acres in Ontario,
Quebec and other forest provinces,
and the work going on is to deter-
mine how most expeditiously to get
these lands back under a forest cover
that will produce good timber and
pulpwood. This is the fourth season
since the work was established and
already the knowledge of how rapidly
Canadian trees grow under differ-
ent conditions of thinning, light
drainage, etc., has been greatly in-
creased. Similar information has
been collected in Europe for about
a hundred years, but European fig-
ures will not do for Canada. It is
too early yet to state results definit-
ely, but, generally speaking, what has
been found has led to the be-
lief that tree growth is just as rapid

COWLEY HAPPENINGS

George Ritson was a Medicine Hat visitor this week.

H. D. Gerry was a business visitor to Calgary over last week end.

R. Easterbrook attended the ball at Blairmore on Friday night last.

Miss Margaret Kemmis, of Blairmore, was a week-end visitor here.

J. A. Edwards and family have taken the Coghill residence for the winter.

Mrs. Nels Nelson has returned home after a summer's stay at Penticton, B. C.

Mr. and Mrs. Coghill have departed for their new home at Grand Forks, B. C.

Master Rod Rhodes, who has been in Spokane for several months, has returned home.

Mr. and Mrs. T. W. Hand, of Hamilton, are visiting friends in the district, enroute to California.

The weather for the past week has been such as to interfere with threshing. Little progress was made.

Mrs. Crawford, of Nacmice, Alberta, has been visiting her sister, Mrs. J. Leigh, and returned home on the 24th.

The U. F. A. local held a meeting Saturday the 24th, at which delegates to the Macleod convention were appointed.

P. J. Biddell has gone to Edmonton, we understand, to accept a position with the attorney-general's department of the new government.

J. H. Hutchison, school inspector, has been making Cowley his headquarters for some days, while inspecting the numerous rural schools in the vicinity.

Wednesday evening, the local Sunday school held their annual rally. A children's concert was held in the church and an enjoyable evening was spent by the parents and pupils.

Mrs. O. L. Pyatt, of National, Wash., has been here for several weeks renewing acquaintances, and left on the 22nd. She will be remembered as Miss Bertha Bouthiller.

Cowley Chautauque festival takes place October 12th, 13th and 14th.

The third degree was conferred at the regular meeting of the Local I. O. O. F. on Tuesday night.

Arrangements are near finalised for the institution of an Encampment branch of the I. O. O. F. at Bellevue.

Alex Morency is making some changes to his store on Victoria Street, and will display general hardware in the front of the building and do tin-smithing and plumbing at the rear.

An auto returning to Coleman from the dance in Blairmore on Tuesday morning early, turned turtle over the road just west of McLaren's Mill. Fortunately the occupants escaped without serious injury. Mack Hunter has since decided to increase his accident policy.

BOXING EXHIBITION

In the main event of the boxing matches staged at the opera house on Tuesday evening, Frankie Landers, of Calgary, won from George Walker, of Minneapolis, by the knock-out route. The fight was scheduled for ten rounds, but the end came about the middle of the third, when Landers got through Walker's guard for a knock-out. The other two rounds were fast and furious, with the winner having the slight edge as he was in better condition than Walker.

The preliminaries were all very good for local stuff. The results were: Jack McAndrew got the decision over Red Evans; Young Richards knocked out Tom Joinsey in the second round of their encounter and Jimmie Nenraya and Gus Pierson battled three rounds to a draw.

Dick Marshall refereed the main event very ably and Freddie Beale handled the preliminaries.

Rain was falling all evening, which stopped a great number of fans from attending. There will probably be more of these bouts staged during the coming winter.

**Quadrille is Coming Fast;
Modern Dances
Too Tame**

They shimmy not; neither do they toddle.

The debutante will soon be taking dancing lessons from grandmother—the quadrille is coming back.

The latest dances, the society walk and the promenade waltz are very tame, indeed and do not disturb one's mental balance or physical equilibrium. Just be natural and you are an up-to-date dancer.

But what the Association of Dancing Masters announced to the public.

That is what was seen at the convention.

Dancing masters in their shirt sleeves and dainty maidens in pink tights and fluffy dresses. Collapsible instructors whisking young misses in knee length Ben Hur skirts and bare knees.

CANADA

Province of Alberta

NOTICE IS HEREBY GIVEN by the following application to the Provincial Secretary under the provisions of "THE CHANGE OF NAME ACT".

I, JAMES SAUDINO, of the Town of Coleman, in the Province of Alberta, Miner, hereby make application under the provisions of "THE CHANGE OF NAME ACT" for a change of name as follows, from Attilio Maneglia, the unmarried infant child of my wife, to Attilio Saudino. The present age of such child is seven years.

I, TERESA SAUDINO, wife of the above named applicant, hereby consent to the foregoing application for a change of name.

TERESA SAUDINO

COWLEY, ALBERTA

BELLE ISLE STRAIT AGAIN

In a recent number of the "Popular Science Monthly," the old and oft discussed project of damming the Strait of Belle Isle—that nine miles of water between Newfoundland and Labrador through which the Arctic currents pour—is given another disarming surface current called the Gulf Stream issues from the Gulf of Mexico and moves north-easterly missing Nova Scotia and eventually washing the western and northern shores of Europe giving them a much higher temperature than their latitude naturally gives them. Hence Nova Scotia has a much colder climate than she should have on account of the cold current coming southward from Baffin Bay. The suggested remedy is a gigantic dam or barrage closing the Belle Isle Strait and deflecting the Arctic current eastward and northward. Such a structure would be ten miles long and at least fifty feet wide at the top, the estimate of material, stone and ferro-concrete being seventy-five million cubic feet, or eighteen million tons. Work could be started at both ends at the same time and the lowest estimate of cost is ten million dollars. The dam would of course be used to carry a railroad connecting up Newfoundland with the continental systems and greatly shortening the trans-Atlantic voyage from America to the British Isles; the distance from St. John's to Liverpool being one thousand miles shorter than from New York to the same British port. Of course a railway might be carried over without a complete stoppage of the Strait by bridging a link in the structure permitting a current to run through. A complete barrage would of course block the Arctic current from flowing into the Gulf of St. Lawrence and would turn its course directly out into the Atlantic and engineers are of the opinion that it would be forced across the ocean in a southeasterly direction by the Gulf Stream and return to the Arctic in the direction of the Spitzbergen Archipelago. They also think that if the Arctic current were turned aside, the Gulf Stream would send a part of its current to wash the shores of New England and Nova Scotia, a change which would alter the climate of these regions greatly. There is an opinion, however, that under these circumstances the Gulf Stream in its trans-Atlantic course might be pushed south far enough to let the cold current wash the shores of the British Isles, making them a sort of European Labrador, with utter disaster to the prosperity or even habitability of the Motherland. If it benefitted both Canada, New England and Britain, however, and the project is really feasible, there is every reason for constructing the barrage by the joint expenditure of the Dominion and the United States. Of course all these are conjectures and opinions and the question remains whether or not the ocean would perform exactly as the engineers think. If, however, all should turn out as expected, the climate of Canada would be affected as far inland as the Great Lakes, and our climate would approximate that of Virginia. Under such circumstances the agriculture of Eastern Canada would undergo a vast change. The increased heat and evaporation would dry up the innumerable shallow swamps and lakes and countless acres of new land would be brought under cultivation, and many crops would be grown that will not now even germinate in our present climate; while two crops a year would be grown in connection with a number of food and fodder plants. One estimate makes the enhanced land value amount up in billions. Last of all, under a warm climate, our population would quickly and vastly increase by immigration, and Montreal would not take long to catch up, or surpass New York as the greatest of shipping ports on this side of the Atlantic at least. If the cost were only ten billions there is no excuse for not carrying out the scheme, but the estimate looks too small.

Visiting members of above branches of the Order cordially invited to attend these meetings.

THE EAGLE EYE THAT GUARDS THE PASS AND PRAIRIE

Written for The Enterprise by M.B.H.

SINCE the recent forest fire in this district the people living here are giving more than a second thought to the planes that are seen flying over the district every now and then. The reason is, that they are beginning to realize what excellent work the Canadian Air Board station at High River is doing, patrolling the forests of the mighty Rockies, looking for fires, reporting them by wireless when located, to the station, who in turn set the planes in motion to get the fire extinguished.

Now to take a glance at the home of these cool-headed, silent guardians of our forests at High River, where the aerodrome is situated.

It is located a few miles from the town limits and consists of four hangars, capable of housing eight planes, two in each one, wireless and telephone equipment, a radio, a repair shop, offices, store houses, and all the things that are needed to insure perfect efficiency. There are five planes now in active service and each is equipped with wireless attachment for sending messages over a wide area. The receiving apparatus is not yet adapted to practical use as the vibration and noise of the plane in motion makes it practically impossible to receive messages.

The force of the Air Board at High River consists of forty men, all of whom are ex-servicemen of the Great War, and were connected with the air force. Out of the forty men on the staff, eight tend the fires, equally divided, as to pilots and observers, and most of them have very creditable records obtained during the war for their activities against the Germans.

Every morning two planes take to the air like huge birds; one going north over the Clearwater district and the other to the south, as far as the international boundary, and over the Crow's Nest Pass district where we see them, sometimes very low down, following up some deep ravine between these towering mountains other times so high that one has to strain the naked eye to get a glimpse of them. Then again they are notified flying at a medium height, and look for all the world as if they were going to get tangled up in the trees on top of some heavily-wooded mountain, only to change their course ever so little, to one side or the other, or glide swiftly up to a higher altitude. To us who watch them from the ground it all looks "as easy as falling off a log." But it is not so easy as it looks. The man guiding that machine must have skill, nerve, presence of mind and quick judgment to meet instantly the numerous risks that are always on his trail. A second's carelessness, air vacuum, cross-wind currents, super velocity and atmospheric interference with the machine control are only a few of the

while making the rounds. And he has the least possible chance of escape from destruction if any of these unforeseen troubles crop up especially while over this mountainous area. There is not even a place where he could effect a landing, and even if there was, the chances are that the occupants of the machine would be so severely shaken or injured that they would not be able to reach help.

Just to give an example of the risks maintained on this dangerous duty of guarding against forest fires. We remember one morning when the fire was raging in the west of "stunt flyer," and all the time Blairmore, a plane went over. We watched it pass a little north of the town, when all of a sudden it was seen going through antics that would stamp a "stunt flyer," and all the time heading for a higher altitude, where it straightened out and was lost to our vision. Later we heard that the machine was out on special patrol of the fire and had run into a dense mass of clouds where it had encountered an unprecedented wind velocity. Powerless to do anything but descend, the men and plane sought safety above the wind, which raised them to an altitude of more than 17,000 feet. Nature, however, not satisfied with this, next landed them in a vacuum. Against they were powerless to help themselves and were dropped down through space, like a chunk of lead, for 8,000 feet, where they regained their poise, but still 9,000 feet above the earth. Just imagine yourself in an elevator at the top of a skyscraper, with a maniac running in full speed towards the bottom and probably you can get an idea of dropping through space. Yet again, it is wonderful to think that these men were not doomed to the earth, for at the rate they were undoubtedly travelling down it would have been instant death. It was just such a vacuum that the late Capt. Shields and his plane flew into when only fifty feet above ground, where he did not have time for a second's thought before he was hurled to

earth, fatally injured. The idea of what the country looks like to the men in the air. It reminds one of a mighty monarch looking over his domain. Looking down and over to one side can be seen the trees and forests of the wooded country, and to the other side, stretching like a vast expanse of water, is the prairie, bald-headed with the dry grass reflecting heat waves. Then directly beneath is a stream, showing up like a white ribbon thrown on the ground. Next a town is to be seen. At a distance it looks like a mass and jumble, but when we glance down again we see that the streets are laid out like chalk lines and vehicles and small dots, which are really human beings, are seen hurrying to and fro. This is not a minute description of what the earth really appears to be from the clouds, and is only meant to give one an idea of the scope of vision from an aeroplane, which goes to show that the Canada Air Board and the Forestry Branch are combining to stamp out the forest fire, which not only destroys property and human life, but the natural beauty of the Canadian Rockies, and other mountainous areas.

Not only forest fires are being watched for by the eagle eye of the patrol. They are also on the lookout for fires on the prairie, at all times. A prairie fire is certainly not to be scoffed at, for it would mean the wiping out of farmer's homes, their stock, grain fields and practically everything they own, if not rendered low and under control before it has gained any headway.

Nothing but praise can be said for those who are engaged in this work for their duty is not an easy one at any time, for they have to go out on the patrol in rain, shine or snow. And it is they who are practically responsible in many ways for the safety of those who live in these mountain towns, and they are the men that never fail in their duty, as this duty, to them, is as serious as the international boundary, and over the "line" on the look-out for enemy planes.

FUNNY ADVERTISEMENTS

Curiously worded advertisements that are funny without intent, are common in the London papers, it would seem. A contemporary recently offered a prize, says the Manchester Guardian, for the best collection of such announcements, and the following is the result:

"Annual sale now on. Don't go elsewhere to be cheated—Come in frame."

"A lady wants to sell her piano; as she is going abroad in a small room from."

"For sale—a pianoforte the property of a musician with carved legs."

"Wanted—a room by two gentlemen about thirty feet long and twenty feet broad."

"Build for sale; will eat anything very fond of children."

"Wanted—by a respectable girl, her passage to New York; willing to take care of children and a good sailor."

"Mr. Brown, furrier, begs to announce that he will make up gowns, capes, etc., for ladies out of their own skins."

"Wanted—for summer, a cottage, for a small family with good drainage."

"Lost—near Highgate Archway, an umbrella belonging to a gentleman with bent rib and bone handle."

"Widow in comfortable circumstances wishes to marry two sons."

"To be disposed of, a small phantom the property of a gentleman with a movable headpiece as good as new."

OVERCOMING MAIL

ORDER COMPETITION

There is no reason why the local merchant cannot sell just as cheaply as the catalog house. On account of quantity, the catalog houses have a distinct advantage in buying; but the enormous expenses attached to the mail order business more than offsets their buying advantages.

To break even the mail order houses have to mark goods at an advance of about 50 per cent, to clear expenses, and as none of them are in business for philanthropical reasons, a substantial profit has to be added to this.

The next point is honest treatment. All mail order houses treat their customers fairly; that is, any goods that are unsatisfactory can be returned together with transportation charges that has been paid by the customer.

This guarantee is given for two reasons—First, to inspire confidence; second, to create the impression that the mail order buyer is laboring under no disadvantages.

To offset this the local merchant should work the personal element to the limit and should at all times willingly exchange unsatisfactory goods.

This would involve very little loss and not much time, because fifty per cent of mail order exchanges are due to the wrong size being ordered, or the wrong goods being sent. Personal selection eliminates both these evils.

Mail order houses are honest, too, in that they have one price to all.

In order to make a sale the local merchant is often tempted to sell goods cheaper to one customer than to another. The haggler who wastes the salesman's time in an effort to beat down the prices is frequently rewarded by a profitable success. The evil effects of this kind of transaction are twofold. The haggler is encouraged to greater efforts; and the really worthwhile customer is liable to go elsewhere in quest of a merchant who will give a square deal.

It is the merchant who gives a square deal who is dishonest.

The one real hardship of the country merchant is the credit system. The sooner the country merchant gets over the idea that he has to be the banker of his customers the better it will be for customer and merchant. Some hardships might be involved in the transaction from credit to cash, but the continuation of the credit system is perpetrating hardships on the merchant and his cash customers. The merchant is handicapped in his

competition with the mail order business; and the cash customer is assessed for the long-gained through bad credits.

The best way to increase your business is to extend your field, and the best way to extend your field is by advertising.

"But," you will say, "it costs a lot of money."

Not necessarily. To start with, in the very large majority of cases, any advertising that is done by the rural merchant is almost altogether wasted.

Pick up your country paper, read the advertising columns and you will find something like this:

"Smith and Co. desire to announce that they have opened a general store where all the latest goods will be carried, and they solicited your patronage."

That would be alright for once, but it drags through weeks and weeks until it begins to lose some of its freshness.

When using newspaper space, change your message weekly, and as a reason why the community should deal with you, quote prices that will be interesting.

That is where mail order houses come heavily. They always quote prices because they know that prices are the only thing that count.

When looking for bargains, don't go outside of your own store. Look around for broken lines of merchandise, and always use your windows in which some of the sizes are missing, or goods that are not selling as fast as they should, and mark them down to a price that will insure quick selling.

Always show reasonable merchandise, and always use your windows for display purposes, not for showing

And last of all, make yourself as useful to your community, inasmuch as you are making your living in a community, you owe that community the best service you can render. It Service rendered is "twice blessed." It blesses him that gives and him that takes.

If you have an opponent in business, don't treat him as an enemy, but as a friend. If you are out of anything which you know he has, tell your customer. This will create a good impression with your customer and will keep the money at home. And, generally, it will create a better spirit—a spirit of friendship that spells success for you and your community—Dealer Service Bulletin.

A Detroit man chafed his new hat with a bottle of liquor, but thoughtfully removed the liquor from the bottle first. Because any inclusion of the fine results of prohibition.

If a body find a bottle empty, don't like it. Don't make a body sore to find the bottle dry?

He tipped the doctor from her lips. As "neatly as mean they sat. And wondered if another man. Drink from a mug like that."

Historical records of great value have recently been exhibited at Norway House, one of the old Hudson's Bay posts in northern Manitoba. Much of the historical lore of the earliest days of the west is buried in old letters and diaries, which are to be found in this outlying posts of that company, from Missinable and Nipigon in northern Ontario, right through to the Pacific coast.

When you're down in the month, remember Jonah. He came out all right.

The difference between the quick and the dead is, the quick are those who tap out of the road in time.

Yes, and the old-fashioned girl used to stay at home when she had nothing to wear.

Canada's forests every year furnish lumber enough to build homes for a million people.

The funeral of the late Miss Harries took place at Coleman on Thursday afternoon last and was very largely attended.

One of our exchanges gives a beautiful picture of a modern lady's skirt. We've used a magnifying glass, but can't find the shirt.

All supporters of the Meighen government are invited to attend a meeting at the opera house on tomorrow evening at 7.30, for the purpose of organizing the Crows' Nest Pass district of the Macleod Federal constituency.

The dance given on Friday night last at the opera house, under the auspices of the Blairmore Junior Hockey Club, was a decided success. Fully one hundred couples were present. Music was furnished by the Blairmore orchestra.

Never find fault because a newspaper fails to give every scrap of news, so long as you take no pains to give the editor information. The average editor isn't a meddler or mind reader, but he gets his news the same way as a milkman gets his milk—by panning. This is true, especially of that class of items known as personals. Rightly, they are not "puffery," but simply personal information of local readers, and those having friends visiting them should always let the local editor know it, and he will be glad to give it proper notice. So, if you have a bit of news worth printing put it in the way of our pencil pusher.

A good one is told of a prominent Macleod citizen who has been lining up with the drys in support of the prohibition scheme. It seems that this individual had been in the habit of supplying police authorities with all information he could gather to assist them in the enforcement of the Alberta Liquor Act. On this occasion he was enroute by train from Calgary towards Macleod.

In the car he noticed two questionable individuals in the far end, who seemed to make frequent visits to a toilet room. He watched a parcel over their seat and noticed something dripping. In their absence he advanced, extended his finger, caught a drop and sniffed at it. Still not satisfied, he caught another drop and tasted it. Presently the two characters entered and were informed that the cork may be out of the bottle in the parcel, whereupon one of them replied: "Why, man, there's no bottle there—that's my two pet pups!"

The shark fishery in the waters of British Columbia is becoming a great industry, according to the Pacific Review. Every part of the fish can be made marketable. The head is full of glue of a highly valuable quality. The bodies are made into fish meal and as a fertilizer it is excellent, there being only two per cent. of oil. The fins are bought by the Chinese as a great delicacy and fetch three dollars a pound. The livers contain sixty to seventy per cent. of the finest quality, and of this ten per cent. can be made into glycerine. The teeth are sold for ornaments. The skin makes fine leather and material for purses, hand bags, gloves, pocket books and shoe uppers.

Terrific Explosion Wrecks Chemical Plant At Oppau, Germany

Mayence.—A great explosion at the chemical products plant of the Badische Anilin- und Soda-Fabrik at Oppau, on the Rhine, wrecked the town and spread death and destruction on every hand. The number killed is variously estimated at from 1,000 to 1,500, and the injured close to two thousand. One report says that there were 3,000 men on the spot at the moment of the explosion and it is believed that about half of these were killed.

The town of Oppau is a scene of utter desolation, more than a third of the houses having been completely demolished, while the roofs of the others were swept off as it by a whirlwind. Here also many were killed or injured.

The explosion is attributed by some to excess pressure in gasoline meters, the whole of this part of the town being literally pulverized. Where the gasometers stood is now a funnel-shaped hole 130 yards wide and 45 yards deep, while twisted girders and debris of every description lie scattered about. For a distance of several hundred yards, not a wall is left standing.

The directorate of the company is quoted as saying that the explosion occurred in a storehouse containing four thousand tons of nitrous acid sulphates, which had previously been examined and was believed to be free from danger of explosion. All the workmen's dwellings in the city were rased to the ground. At Mannheim, on the opposite side of the river, 35 persons were seriously injured and two hundred or more suffered minor injuries. Ludwigshafen reports say that three workmen's trains were buried under the wreckage, and many children on their way to school in that town were injured.

Mayence.—A late statement issued by the management of the Oppau factory says that the explosion occurred in a reservoir containing 200 tons of ammonium sulphate. It adds that all necessary precautions had been taken during the process of manufacture and storing the product, so that an explosion appeared impossible.

Russian Scouts Ask For Famine Aid

Send Appeal For Starving Children to Canadian Scouts.

Chita.—The Russian boy scouts are sending a message to the Canadian scouts appealing to them to organize famine aid. Many children have been sent here from the famine-stricken parts of Russia to try this month. They will be appointed among private families as the Chita Government is not able to provide for them owing to its lack of funds.

The children coming from the interior of Russia brought a little food with them. An analysis of their bread shows that it was made of a mixture of sorrel, grass and a trace of bran.

According to reports received here in the ten governments in the valley of the Volga there are 90,000,000 persons starving.

Food Is Cheaper In England

Shopkeepers Also lowering Prices of Dry Goods.

London.—While the general tendency of retail prices in England is downward, complaint has been made that the licensed victuallers are now charging more for beer and whiskey although the cost of brewing materials has decreased. Shopkeepers are generally lowering their prices of foodstuffs and dry goods in consequence of the announced drop in current wholesale quotations.

In many cases this means a sacrifice of profit on the retailers' part, but it is pointed out that many of the retailers who are most reluctant now were among the first to mark up their existing stocks when prices were rising.

Liner Teutonic Sidel.

London.—The Teutonic, the big White Star liner, which for upwards of 30 years was engaged on Atlantic passenger service, has been sold to a Dutch firm and is being taken to Rotterdam to be broken up.

Warne Irish Taxpayers.

Belfast.—Irish Republic authorities here have warned the people of some of the districts of Ireland to refuse to pay income taxes to British collectors until the Dail Eireann has reached a decision on that subject.

WESTERN EDITORS

W. G. Pickell, Publisher of the Okaville Standard and Langruth Herald.

Veterans May Organize Legion

Organization Would Mean a Unity of All Members.

Toronto.—The Canadian Legion of Veterans which is designed to form a medium through which all Canadian ex-service men and women may unite as members of one veteran's organization becomes a definite reality as a result of action taken at a recent meeting of the provisional committee. The committee voted to proceed with the organization of the legion, they at the same time stipulated that such organization should constitute only a holding body until such time as amalgamation becomes an accepted fact.

Fire Destroys Lumber Stocks

Loss of Ontario Company Will Be Heavy.

Parry Sound, Ont.—Fire destroyed the mill and lumber stocks of the Cooper Lumber Company, as well as a large number of boats, canoes and bathhouses, along the waterfront. For a time the town itself was threatened with destruction, but the wind that blew from the southeast aided the fire fighters.

Besides the mill and machinery, the loss includes six million feet of lumber, four million pieces of bath, piles, slabs or other mill products, as well as barns, stables, dwellings, tramway and railway spur lines. The extent of the loss, which has not yet been estimated, is partly covered by insurance. "About eighty men will be thrown out of employment."

Lawlessness in India Continues.

London.—A Reuters despatch from Madras, India, says raiding and wholesale looting is still prevalent in parts of the Malabar district and bodies of rebels are terrorizing the countryside.

French Considering Disarmament Question

Paris.—The tentative agenda of the approaching conference at Washington on armaments and the Far Eastern matters has been received at the French Foreign Office. It is understood to meet with the French Government's approval, except the clause containing the limitation of land armaments.

Premier Briand personally is studying this clause and has asked the advice of Marshals Foch and Fayolle before making suggestions regarding modifications.

Great White Chief Will Respect Treaty

New York.—Chief Wash-Ka-Leh, of the Cayuga Indians, has returned on the Olympic from London after a pilgrimage to the foot of the throne in the interests of his tribe.

The chief laid before King George V. the treaty made with the Indians in the reign of King George III, and the wampum belts confirmed it. He declared that he won his case before the great white chief and announced the treaty will be respected.

Canadian Loan To China

Agreement Recently Signed Has Raised Important Issues.

London.—The Times correspondent at Peking says that important issues have been raised in the agreement recently signed in that city by which a Canadian banking syndicate will lend the Republic of China \$5,000,000 gold against one-year bonds, secured on various enterprises. It is noted that the discount and interest give a return to the Canadian investors of a rate exceeding 30 per cent. per annum.

The correspondent says that the transaction seems to be in order except that the concertum of the powers formed to regulate the question of a loan to China has not been consulted and that the loan is a direct negation of the British Government's policy in China.

It is pointed out, however, that the Canadian Government is not a party to the concertum agreement between Great Britain, United States, France and Japan, and may feel under no obligation to observe its terms. Nevertheless, foreign parties to the concertum will naturally take the view, says the correspondent, that if the Canadian loan goes through, the British Government will be subscribing to one policy with the right and totally different policy with the left. The concertum agreement must end if, all parties to it do likewise.

Disorders In Vienna

Crowd Incensed At Profiteering in Foreign Exchange Values.

Vienna.—Serious disorders occurred in this city following the closing of the bourse. Many rushes were made upon the entrances to the building, but these were checked by the police. The crowds then wrecked the shops of several money changers in the vicinity, while a few men suspected of speculating in foreign exchange were dragged from their automobiles and beaten.

Impromptu mass meetings were addressed by speakers, who declared the bourse would be closed permanently if profiteering in foreign exchange values did not cease.

German Plan For Raising Funds

Reparations Commission Approves Idea of Credit Organization.

Berlin.—The German Reparations Commission which is dealing with the problem of raising funds for future German indemnity payments, has approved a plan looking to the creation of a collective credit organization embracing all industries, banks and realty owners on the principle of limited liabilities.

The plans contemplate the mortgage to the State by each member of a fixed proportion of its holdings in return for which certain abatements of taxation would be granted.

The entire area in B.C. is government-owned land, and the Board of Trade at Creston which for years has been urging its reclamation expects the provincial lands department—If the lands are drained—to adopt a policy of selling the tract in not larger than 40-acre farms to bona fide farmers or settlers at a price that will just nicely suffice to meet the full cost of draining the area. As to the cost of the work it has been agreed that the U.S. and British Columbia interests will pay this pro rata on the basis of acres reclaimed.

Will Not Visit Canada.

London.—There is no question as to the Prince of Wales visiting Canada on his return journey from his tour of India as he will follow the same route homeward as on his outward voyage, namely, via the Suez Canal.

Canadian Navy In N.B.

St. John, N.B.—The cruisers Aurora, Patriot and Patricia, and submarines CH-15 and CH-16, members of His Majesty's Canadian Navy, arrived in this port from Halifax and docked at Sand Point, West St. John.

Declare Unemployment Is Now Great Britain's Big National Problem

Plan To Reclaim Lands In B. C.

Would Bring About Thirty Thousand Acres Under Cultivation.

Recently there appeared in the press a despatch from Victoria, B.C., stating that at a joint conference of the drainage officials of the State of Idaho and the Province of British Columbia, an agreement had been entered into which would assure British Columbia of the drainage of the Kootenay River Valley, approximately half of which area lies in Idaho and the other half in British Columbia.

Looking solely at the 30,000 acres on the Canadian side of the boundary line, to the average prairie dweller the bringing of this area—less than 50 sections—under cultivation is a matter of hardly more than passing moment. In many parts of the west the swinging of such a project now days would get scant attention except for local publicity purposes.

In British Columbia, however, where 30,000-acre tracts of continuous agricultural land are outstanding fertility is very much the exception, rather than the rule, the probability of ultimately bringing such an area under production is attracting almost universal attention; in some measure due to the fact that the best reclaimed lands are located in the very heart of a territory that rather badly needs agricultural products of the sorts this overworked territory can produce in both quantity and quality.

The cause of this annual overflow of the area is simply a matter of too large an intake of water and too small an outlet for the spring floods. The Kootenay River, with its tributaries, draining the whole of the western slopes of the Rocky Mountains in B.C. and the Selkirk range, after a bold sweep southward running into the United States as far as Bonners Ferry, Idaho, from that point turns directly north again to B.C. and Kootenay Lake. At the same time the Lardo River and others run into the lake at the other end and the combined volume of water passes out toward the centre of the lake by a passage called the West Arm, like the downward stroke of a gigantic T, past Nelson and Bonington Falls to join the Columbia River.

The reclamation has solely to do with the enlarging of the lake's outlet. In 1913 a preliminary survey was made by Engineer Meurling, who in his findings reported favorably on the project but asked for a more thorough examination of the whole territory before making a final decision. With the outbreak of the war the next year the scheme was, for the time being, abandoned. American engineers have also spent two seasons on the work, and their report made public two years ago, was strongly in favor of the work being proceeded with, the estimated "cost" being a little over \$2,000,000.

The land is in one of the older settled parts of B.C. interior, already supplied with railway communication by the Crow's Nest line, has good high ways, educational facilities and every modern convenience, so that the province would be at no expense in providing these. The bench lands surrounding this to-be-reclaimed area is one of the finest fruit areas in all B.C. The climate is ideal.

The entire area in B.C. is government-owned land, and the Board of Trade at Creston which for years has been urging its reclamation expects the provincial lands department—If the lands are drained—to adopt a policy of selling the tract in not larger than 40-acre farms to bona fide farmers or settlers at a price that will just nicely suffice to meet the full cost of draining the area. As to the cost of the work it has been agreed that the U.S. and British Columbia interests will pay this pro rata on the basis of acres reclaimed.

Will Not Visit Canada.

London.—There is no question as to the Prince of Wales visiting Canada on his return journey from his tour of India as he will follow the same route homeward as on his outward voyage, namely, via the Suez Canal.

Canadian Navy In N.B.

St. John, N.B.—The cruisers Aurora, Patriot and Patricia, and submarines CH-15 and CH-16, members of His Majesty's Canadian Navy, arrived in this port from Halifax and docked at Sand Point, West St. John.

London.—A manifesto just issued by the Labor party declares that the unemployment situation is a national problem and requires a national policy to deal with it.

The Government's scheme of placing the main portion of the burden on local authorities, says the manifesto, is unjust, inadequate and indefensible, and must be abandoned in favor of much more generous assistance. If work is not provided for the unemployed, then provision for their maintenance must be made through adequate unemployment insurance benefits.

The suggestion is also made that the Government should place orders for staple commodities for which there is a demand, at prices to be agreed upon after examination of the goods. It contends also that employers cannot expect to receive normal profits and that prices should cover the bare costs of production. The manifesto further proposes that the Government should export wool, textiles and agricultural machinery to needy European countries on credit.

"Co-operation between the Government and local authorities, manufacturers, traders, bankers and organized labor is essential," said the Prime Minister, "if we are to get to grips with the problem."

Delighted With Canadian Tour

Sir John Simon Enthusiastic Over People of Dominion.

London.—Sir John Simon on returning to England after his visit to Canada expressed himself to the Canadian Press representative as full of enthusiasm for the Dominion of Canada and her people. His stay across the Atlantic had been delightful.

Sir John begged to be excused, however, when asked as to his views concerning the Canadian attitude toward the question of legal appeals to the Privy Council in London. He said he did not feel disposed to deal with this subject. "It will be remembered that on his return from Canada last year, Lord Cave of the Court of Appeal, gave an extensive account of his impressions of the matter of Dominion appeals to the Privy Council and much lively discussion was thereby provoked."

Cannot Get Rid Of Extremists

Soviet Will Not Receive Undesirable Russians From U.S.

Washington.—More than 100 Russian anarchists are at liberty in the United States under bonds which are covered by \$600,000 in Liberty bonds deposited with the Secretary of Labor. On account of the refusal of the Russian Soviet Government to accept them, it has been impossible to deport them, efforts of the U.S. Government to induce the Soviet Government to open its borders to receive these extremists will be in vain. About 100 insane and other undesirable Russians, so far have been futile.

Reach Salisbury Beach.

Salisbury Beach, Mass.—J. H. Engle, of Halifax, N.S., and Arthur Sprague, of St. John, N.B., as well as a 16-foot boat put in here after being buffeted in a heavy sea off shore on their voyage from Halifax to Vancouver via the Panama Canal. They entered their trip July 25 last.

Hostilities Broken Out.

Geneva.—Announcement that hostilities between Yugoslavia and Albania have broken out has startled the assembly of the League of Nations in session here, and there is a disposition on the part of many of the more prominent leaders to bring the situation before the assembly at the earliest possible moment.

Republic In Hungary Denied.

Budapest.—Austrian reports that Stephen Friedrich has proclaimed a republic in West Hungary and that the Hungarian Government has ordered the mobilization of troops are denied by the Hungarian agency.

Toronto Man Catches Largest Trout.

Port Arthur, Ont.—W. G. H. Brown, Dominion Bank Building, Toronto, is winner of the Canadian National trophy for the largest brook trout caught in the Nipigon River this season. The fish weighed seven pounds.

Spend your money at home, thereby helping your own town and local merchants.

Blairmore Cash Grocery

I'm running a sherrized store!
I wouldn't go back any more,
For a cartload of scads,
To the ways of our dads
To the sloppy old methods of yore.
You ask what does sherrized mean?
Well, firstly, its making things clean,
In a sherrized store, there's no junk on the floor,
No dirt or disorder is seen.
Folks come to my store and when they've looked it o'er
They murmur, Gee Whizz!
How delightful it is!
We've seen nothing like it before.
The customer cheerfully spends
And when from my place he wends,
He gives me no knocks, but boasts as he walks,
My sherrized store to his friends.
Oh here in my sherrized shop, economy's always on top
For things are at hand, at instant command,
I don't have to walk till I drop.
The goods are in sight of the scale, I waste no time in a sale;
I gambol and smile in the old-fashioned style,
As I merrily take in the kale.
Fresh Eggs, per doz 45c. Tomatoes, per basket 40c
Italian Prunes, per case \$1.75 Salad Oil, gallon \$2.55
Citrate of Magnesia, large bottle \$1.25
Queen Olives, large full quart jar, each 75c

Call at The Enterprise and select your Greeting Cards. The season is fast approaching and if you have friends at a distance you wish to remember, now is the time to get busy. We have over six hundred samples to choose from at prices from \$1.25 per dozen up.

Someone reported last week that a baby show was to be staged at the Orpheum theatre on Saturday night last, but later we discovered that a prize was being awarded the most attractive "young" lady. Mrs. W. Archer was the winner. Congratulations, old chap!

Of Local Interest

Oat Green Feed, Upland and Timothy Hay for sale.—Johnson & DREW, Olds, Alberta.

LOST—Between Blairmore and Frank, one Truck Chain. Finder will be rewarded on leaving same with Tony Stella.

Miss Violet Sargent is relieving as nurse at the local hospital for a few days.

V. H. Hutton, representing the Barber-Ellis Paper Co., of Calgary, was in town on Monday.

T. H. Duncan, of the Columbia hotel, Elko, was in town for a few hours the early part of the week.

As soon as Capt. Janney decided to break his hunger strike, prices of certain food products took a marked advance.

The Lethbridge Herald compliments our local provincial member, F. M. Christophers, on his active interest in the matter of education.

The man Rutledge, sentenced to hang last week, for the murder of his family, was a former Methodist minister in Quebec province.

Mr. Brown, manager of the Wentworth hotel at Cranbrook has been sentenced to serve six months in jail for violation of the new moderation act.

J. H. Russell, a farmer of the Granum district, paid a fine of \$50 and costs last week for rough-handling the editor of the Granum paper.

At a meeting of the board of managers of the Union church on Monday night, it was decided to purchase property as a manse for the pastor. The property decided on is on the corner directly west from the church on State Street, which when completed will cost in the neighborhood of \$2500.

The dance given by the Slavonian boys at the opera house on Monday night was the largest attended event of its kind held in the opera house. Music was furnished by the Blue-Bird orchestra, of Lethbridge, and the proceeds were given to St. Anne's Catholic church.

The Union church was filled to overflowing on Sunday night last, on the occasion of the annual church service for the Rebekah Lodge I.O.O.F. About fifty members of this branch of the Order and quite a number of members of the Subordinate I.O.O.F. lodge were in attendance. An appropriate and able discourse was delivered by Rev. W. T. Young from James 1-27.

L. H. Putnam appeared in court at Macleod last week to defend several clients. He was successful in all cases undertaken. One case, that of Demetrio Uranitz, of West Coleman, charged with stealing a gramophone and records belonging to Nick Deputat, alias Coleman, accused pleaded guilty and judgment was rendered in his favor. Another, W. Siasiter, of Bellevue, charged with having in his possession a cow that was not his property, was also found not guilty. J. W. McEwen, of K. C., of Macleod, prosecuted.

About the best football game of the season was played at Bellevue on Saturday evening, when Blairmore put it over on Bellevue to the tune of 1-0 in the second game in the Cranah Cup series. The game throughout was marked by excellent play and was witnessed by a record crowd of spectators. It is reported, however, that two Calgary men appeared on the Bellevue team. If such report is correct, it is regrettable in the face of the fact that the Blairmore team was absolutely Blairmore material.

William Irvine, who contested the East Calgary federal riding in 1917 on the Labor ticket, is to be the standard bearer again for the Labor Party in one of the Calgary ridings in the coming election.

Harry J. Benson returned Thursday morning from Fort McMurray, where he has been in company with Fred Grenier for several months.

Americans are to start a nationwide campaign to raise five million dollars for the relief of starving children in the famine districts of Russia.

Judge—Have you anything to offer the court before sentence is passed on you?

Prisoner—No, your Honor; my lawyer took my last dollar.—Boston Transcript.

Mrs. L. H. Putnam accompanied her husband to Claresholm on Monday, where she is spending a few days the guest of Mrs. J. W. Mackay, of the Claresholm hospital.

A meeting of a few ardent supporters of the Meighen government candidate was held in Macleod on Monday last, when, we understand, it was decided to start a vigorous campaign of organization.

The West Canadian Collieries Greenhill mine has received an order from the T. Eaton Co., Winnipeg, for five thousand tons of coal. Tim has evidently caught the habit from some of our local people of sending out of town.

The Windsor, N. S., Tribune remarked that "the old guard Presbyterians rallied to organize against church union. Whether this will develop into a spirit in the church is not clearly indicated, but the movement looks like a pretty big wedge. Curious what bigotry will do in the name of religion, but it is only history repeating itself. One hundred years from now these stand-patters will be ranked among the Auld Kirk stubbornists who thought it was for a Christian principle."

An extra edition of the Canada Gazette, dated September 14, proclaims the bringing into force of the Judiciary Act of Alberta, passed at the 1919 legislative session, to become effective September 15th. This act fixes the salaries of judges of the supreme court of Alberta, as provided for in subsection 2 of section 114 of the Judges Act of Canada, and shall be as follows: chief justice \$10,000; four justices of appeals at each \$9,000; chief justice of trial divisions \$10,000; five justices of the supreme court at each \$9,000.

The Macleod Federal constituency had at the recent provincial elections the following votes: Claresholm 1572, Macleod 1347, Pincher 2368, Rocky Mountain 3258, High River 1181, Okotoks 1519—total 11,945. The northern part of the Rocky Mountain riding cutting off about 1000 votes, would leave practically 11,000 in the Macleod constituency. Since the provincial elections a great many will be entitled to votes who were not formerly, and there is no doubt that the Macleod constituency will have approximately 15,000 votes.

The members of Dominion Rebekah Lodge No. 41, Lethbridge, were pleasantly surprised at their regular meeting on Thursday when Bro. W. B. Burnett, Grand Master of the Grand Lodge of Alberta I.O.O.F., presented the lodge with handsome ebony and silver gavel. In making this presentation Bro. Burnett, who is a charter member of Dominion lodge, made a very pleasing address. Sister Fern Smith on behalf of the lodge thanked Bro. Burnett, and a hearty vote of thanks was tendered him by the lodge. Before the evening was brought to a close, it being the 70th anniversary of the Rebekah degree, a short programme was rendered, after which the members were called to the banquet hall where they did full justice to the good things provided by the committee in charge.

winter.

IMPERIAL Polarine MOTOR OILS

Quality maintains economy. No matter how much you pay "per gallon" for other lubricating oils you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

Maintains Economy

IMPERIAL Polarine Motor Oils save many thousands of dollars every year for Canadian motorists because of reduced operating expenses.

Imperial Polarine Motor Oils cut down repair and maintenance costs, reduce fuel bills and insure you for all time against excessive depreciation and repair expenses. Imperial Polarine quality maintains economy all along the line.

Judged by quality—gauged by actual miles of perfect lubrication each gallon will give, and by real motoring satisfaction, Imperial Polarine is the least expensive motor lubricant that you can obtain. The more carefully you check up costs, the more thoroughly convinced you will be of the advantages of using Imperial Polarine Motor Oils exclusively.

Standardize on the correct grade of Imperial Polarine Motor Oils. Consult our Chart of Recommendations at your dealer's or write to 56 Church Street, Toronto, for our interesting booklet, "Automotive Lubrication."
